This series contains papers, drafts of papers, and other research materials for work done in high school, college, graduate school, and other miscellaneous material.

BIOGRAPHY The Rev. Dr. Herbert R. Swanson was born in Lincoln, Nebraska (USA), on 11 September 1946 to Mr. Roland H. and Mrs. Ruth E. Swanson, the oldest of four children. He graduated from Luverne High School (1964), Minnesota, Buena Vista College, Storm Lake, Iowa (History, 1968), and from Princeton Theological Seminary, Princeton, New Jersey (Practical Theology, 1972), University of Maryland, College Park, Maryland (M.A., History, 1987) and the Melbourne College of Divinity, Melbourne University, Australia (Ph.D., Church History, 2003). He married Ms. Warunee Deetana in 1974. After serving as a Presbyterian pastor in the United States, he moved to Chiang Mai in 1976 and taught history at Payap College. In 1979, he became the founding director of the Payap College Manuscript Division, now the Payap University Archives. He held that position until 1984. In January 1988, he became the founding director of the Office of History, Church of Christ in Thailand (CCT) and remained in that position until 2004 when he returned to the United States. Dr. Swanson was ordained as a minister of the Presbyterian Church (USA) in 1972 and served as pastor of churches in Pennsylvania, Maryland, Michigan, and New York.

COMMENTS Although Dr. Swanson donated a small amount of material with the Archives in 1984 when he resigned as its director, he gave the great bulk of this collection to the Archives after he retired from pastoral ministry in the United States in 2016. The general integrity of this collection is good because it never left the possession of Dr. Swanson until he donated it to the Archives. He is also the one who processed this records group and prepared this finding aid. The order of the files in this records group is generally the same as their original order when Dr. Swanson was using them. Because these materials were stored for long periods of time in places that were not air conditioned, there is some heat damage to them; but that damage is not significant for the most part.

This records group documents the role Dr. Swanson played in the study of Thai church history both as a researcher himself and as an instructor who taught courses in history, Thai church history, and research methods. It contains drafts of articles and other writings as well as the notes for numerous oral presentations (including lecture notes for the classes he taught), which are not available elsewhere. It also contains a large amount of photocopied research materials that are helpful to the study of Thai church history in their own right and contain Dr. Swanson's annotations.
